

IMPROVED PROCESS

MANY OF THE JOBS ARE MOVING AWAY FROM B-TANKS AND ARE USING THE FLATTOP ACETYLENE BOTTLES (STYLE A140F). USING AN ADAPTER FROM OXARC (WESTERN ENTERPRISES PART NUMBER # 315) IT EASILY CONVERTS TO A TURBO TORCH CONNECTION. USING THESE LARGER BOTTLES ON CARTS ELIMINATES THE NEED TO TIE THEM OFF, IT KEEPS THEM OUT OF THE GANG BOXES, AND THEY LAST FOR WEEKS WHICH SAVE STEPS BOTH IN THE FIELD AND FOR THE FOREMAN. WE SHOULD ALL MAKE THIS THE NEW STANDARD WHERE APPLICABLE.
