

Tools for Life – Weekly Health & Safety Meeting

Home Healthy - Home Safe

Date: January 2022

Injury Free Workplace

In 2021, we had 44 first aid injuries, 13 recordable incidents, 4 restricted work injuries and 2 lost time incidents. Why is this important? Why should you care? Because..... "Healthy Workers are Safer Workers"

The key elements of this process consist of the following:

Leadership: Inspires and exemplifies "Home Healthy - Home Safe" as a core value.

Behavior: Motivate workers to choose and commit to Healthier and Safer behaviors.

Environment: Provide workspaces that are functionally supportive of a culture of Health and Safety.

Health and Safety Plan Elements

- Orientations
- Discipline Policy
- Subcontractor Pre-qualification
- Health and Safety Representative
- Stop work
- PPE
- Training Requirements
- Meeting Requirements
- Health and Safety Planning Process
- Incident Reviews
- Health and Safety Inspections/Observations
- Health and Safety Self-Assessment
- Project Management Involvement
- Subcontractor Flow down
- Equipment Inspection
- Accountability and Responsibility
- Job Site – Good Order and Housekeeping Policy

To provide an Injury Free Workplace, we need to be committed and discipline in following the health and safety plan elements. Apollo Home Healthy - Home Safe program is to reduce worker injury and illness. Apollo promotes a continuous improvement, value driven health and safety program that recognizes employee health that can directly impact employee safety.

Discussion Points/Quiz Questions:

1. Who can stop unsafe work or situation?
2. What is the minimum cut level gloves required for hand protection?
3. What does PTP stand for and what is it used for?
